(BALTIMORE, MD) – Local residents and other interested members of the public are invited to comment on a proposal by TPE MD KE77, LLC to construct a 5.0 MW solar generating facility in Kent County. The virtual hearing will take place on **Wednesday, December 10, 2025 at 6:00 p.m.** before Chief Public Utility Law Judge Kristin Case Lawrence.

In June 2025, the developer applied to the Maryland Public Service Commission for what is known as a Certificate of Public Convenience and Necessity (CPCN), which grants an applicant the authority to construct an energy generating station in Maryland. According to the application, the developer proposes to build the project on approximately 53 acres of a 304-acre property located at 12721 Bloomfield Road in Kennedyville. The project is proposed to serve local community solar subscribers within Delmarva Power's service territory, including low- and moderate-income households in the Kennedyville area.

In addition to taking comments from the public, the hearing will include a presentation by the applicant, brief statements by the parties, including the Power Plant Research Program of the Maryland Department of Natural Resources, and the Commission's Technical Staff, as to their respective roles in the case.

Those who would like to speak at the hearing must sign up (by December 9, 2025) through the Calendly app on the Commission's website, [www.psc.state.md.us](http://www.psc.state.md.us):
