Virtual Public Hearing Set for Harford Calvary Solar Project Proposed for Bel Air

For Immediate Release: February 3, 2026

(BALTIMORE, MD) – Local residents and other interested members of the public are invited to comment on a proposal by Harford Calvary Solar 1, LLC to construct a 2.5 MW solar generating facility in Harford County. The virtual hearing will take place on **Tuesday, February 17, 2026 at 6:30 p.m.** before Public Utility Law Judge Jennifer J. Grace.

In September 2025, the developer applied to the Maryland Public Service Commission for what is known as a Certificate of Public Convenience and Necessity (CPCN), which grants an applicant the authority to construct an energy generating station in Maryland. According to the application, the developer proposes to build the project, intended as part of Maryland's community solar program, on approximately 11.7 acres of a nearly 54-acre property located along the northwest side of the intersection of Maryland Route 543 (S. Fountain Green Road/Creswell Road) and Maryland Route 136 (Calvary Road) in Bel Air.

In addition to taking comments from the public, the hearing will include a presentation by the applicant, brief statements by the parties, including the Power Plant Research Program of the Maryland Department of Natural Resources, and the Commission's Technical Staff, as to their respective roles in the case.
