Maryland Public Service Commission Sets Public Hearing on Proposed Harford County Solar Project

For Immediate Release: April 20, 2026

(BALTIMORE, MD) – Local residents and other interested members of the public are invited to comment on a proposal by OneEnergy Development, LLC to build the 3.0 MW Skipper solar generating facility in Harford County. The hearing will take place on **Monday, May 4, 2026 at 7:00 p.m.** at the Abingdon Fire Company, 3306 Abingdon Road in Abingdon.

The Maryland Public Service Commission has delegated this case to its Public Utility Law Judge Division; Chief Public Utility Law Judge Kristin Case Lawrence will preside over the hearing.

In June 2025, the developer - OneEnergy Renewables - applied to the Commission for what is known as a Certificate of Public Convenience and Necessity (CPCN), which grants an applicant the authority to construct an energy generating station in Maryland. According to the application, the developer proposes to build the project, intended as part of Maryland's community solar program, on 12 acres of a nearly 25-acre property located a quarter-mile southeast of the intersection of Churchville Road and Calvary Road in Churchville.

In addition to taking comments from the public, the hearing will include a presentation by the applicant, brief statements by the parties, including the Power Plant Research Program of the Maryland Department of Natural Resources, and the Commission's Technical Staff, as to their respective roles and recommendations in the case.

The hearing will also include a virtual option for those unable to attend in person. Attendees can register (by April 30, 2026) from the 'File a Public Comment' page of the Commission's website, <https://psc.maryland.gov/online-services/file-a-public-comment/>:

Comments sent by mail should be addressed to: Jamie Bergin, Chief Clerk, Maryland Public Service Commission, William Donald Schaefer Tower, 6 St. Paul Street, 16th Floor, Baltimore, MD 21202.
