(CLASSES C and D)

ANNUAL REPORT

OF

MARYLAND-AMERICAN WATER COMPANY

(NAME OF RESPONDENT)

212 Archer Street, Suite B&C, Bel Air, MD, 21014

(ADDRESS OF RESPONDENT)

TO THE

PUBLIC SERVICE COMMISSION

OF MARYLAND

FOR THE YEAR ENDING DECEMBER 31, 2017

ATTENTION IS DIRECTED TO THE FOLLOWING EXCERPTS FROM THE PUBLIC SERVICE COMMISSION LAW OF MARYLAND, CODIFIED AS ARTICLE 78 OF THE ANNOTATED CODE OF MARYLAND, EDITION OF 1957

Sec 2 DEFINITIONS

(a) "Public service company" means a common carrier company, gas company, electric company, steam heating company, telephone company, telegraph company, water company, sewage disposal company, and/or any combination thereof. Two public service companies shall be considered of the same class, where they are both common carrier companies or both gas companies, electric companies, gas and electric companies, steam heating companies, telephone companies, telegraph companies, water companies or sewage disposal companies.

Sec 2B AFFIRMATIVE DUTIES

Every public service company shall, in addition to such other duties as may be specifically imposed by this article:

(b) File with the Commission an annual report for the preceding calendar year; and such special reports, information, contracts and records or copies thereof as the Commission may direct. The Commission may require that documents filed under this section be under oath.

Sec 67. RECORDS AND REPORTS OF PUBLIC SERVICE COMPANIES

(b) Annual report to be verified; contents - The annual report of every public service company shall be verified by oath of the president,

treasurer or general manager and, in addition to such other information as might be required by the Commission, shall show: (a) Amount and kind of authorized capital stock, and of capital stock issued and outstanding, (2) amount and kinds of authorized bonded indebtedness, and of bonds and other forms of evidence of indebtedness issued and outstanding, (3) receipts and expenditures for the year reported, (4) the amount paid as dividends and interest upon bonds or other similar indebtedness, (5) the amount of salary paid to each officer, by name, and the amount paid as wages to employees, and (6) the location of its plants with full description to its plant and franchises, stating in detail how each franchise stated to be owned was acquired.

SEC. 102 FORFEITURES

(a) Failure to file report, answer question or furnish information - Any public service company which fails to file its annual report with the Commission within the time limited by this article, or extended by the Commission; or fails to give a full, specific and responsive answer to any question reasonably directed to it by the Commission, or fails to make any report or furnish any information required by the Commission, within 30 days from the deadline fixed for such report or answer, shall be liable to forfeit the sum of \$100 for each day it is in default with respect to any one or more of the foregoing requirements.

Every inquiry contained in the accompanying forms for the annual report must be definitely answered. Where the word "none" truly and completely states the fact, it may be given as the answer to any particular inquiry or any particular portion of any inquiry. Except in cases where they are specially authorized, cancellations, arbitrary check-marks and the like must not be used either as partial or as entire answers to inquiries. If any inquiry, based upon a preceding inquiry in the present report forms, is because of the answer rendered to such preceding inquiry, inapplicable, to the person or corporation in whose behalf the report is made, the words "not applicable" should be used in answer thereto, and precise reference must be made to the particular portion of the report showing the facts which make the inquiry inapplicable.

Definitions of Terms used in the present Report - Except where the context clearly indicates some other meaning, the following terms, when used in these forms, have the meaning below stated:

Respondent means the person or corporation in whose behalf the report is made. The year covered by this report. The close of the year means the close of business on December 31, of the year covered by this report. The beginning of the year means the beginning of business on January 1 of the year covered by this report. The preceding year means the calendar year next preceding the year covered by this report.

Answers to the inquiries contained in the following forms must be complete. No answer will be accepted as satisfactory which attempts by reference to any paper or document other than the present report to make the paper or document or portion thereof thus referred to a part of the answer without setting it out.

All entries should be made in a permanent black ink, except those of a contrary and unusual character (like deficits, for example) which should be made in a permanent red ink.

Each respondent should make its annual report to this Commission in duplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason two copies of the accompanying forms are sent to each corporation concerned.

Sheets inserted or accompanying the present forms when returned and intended by the respondent to be made part of its annual report should be securely and permanently attached hereto (preferably along the inner margin of the page to which attached) in such a way that they cannot be removed without modification to the report, and in such case that if removed their removal or detachment would be readily apparent. Attachment by pins or clips is insufficient.

The Public Service Commission desires to have a complete file of annual reports of public service corporations to their stockholders. To that end the reporting corporation is requested to file in connection with its annual report to the Public Service Commission two copies of its latest annual report to stockholders if such report is in print; if not in print, that fact should be stated.

THIS REPORT MUST BE FILED IN THE OFFICE OF THE PUBLIC SERVICE COMMISSION OF MARYLAND ON OR BEFORE MAY 31, NEXT SUCCEEDING THE YEAR COVERED BY THIS REPORT

CLASSIFICATION OF UTILITIES

For the purpose of applying systems of accounting prescribed the Commission, water utilities are divided into four classes, as follows:

- Class A. Utilities having annual water revenue of \$500,000 or more.
- Class B. Utilities having annual water revenue of \$250,000 or more but less than \$500,000.
- Class C. Utilities having annual water revenue of \$50,000 or more but less than \$250,000.
- Class D. Utilities having annual water revenue of less than \$50,000.

The class to which any utility belongs shall originally be determined by the average of its annual water operating revenues for the last three consecutive years. Subsequent changes in classification shall be made when the annual water operating revenues for each of the three immediately preceding years shall exceed the upper limit, or be less than the lower limit, of the annual water operating revenues of the classification previously applicable to the utility.

Any utility may, at its option, adopt the system of accounts prescribed by the Commission for any large class of utilities.

Attention is called to the following requirements of the Annual Report.

COMPARATIVE BALANCE SHEET, PAGES 8 and 9.

The column for "Net Changes During Year" should be filled out and net changes agree with the differences between amounts given as "Balance at Beginning of Year" and "Balance at End of Year".

The Unapportioned Earned Surplus," on page 9, should agree with amount shown by the "Earned Surplus or Deficit Account", on page 19.

CAPITAL STOCK AND LONG-TERM DEBT, PAGE 14.

Full particulars called for regarding Capital Stock and Long-Term Debt must be given.

INCOME ACCOUNT AND EARNED SURPLUS OR DEFICIT, PAGES 17, 18, and 19.

These statements must be made accurately and the "Balance at End of Year" of the Earned Surplus or Deficit Account must agree with the amount set up in the Comparative Balance Sheet.

COMPARISON WITH PRECEDING YEAR.

"Comparison with Preceding Year" means the increase or decrease of any given item as compared with the amount for the year previous for that item.

OFFICERS' SALARIES

Report below the amount of the compensation paid during the year to each elected officer of the respondent. Report also the compensation of each other payee receiving annual compensation of \$10,000 or more. If compensation reported for any officer or employee does not cover the full year, state the period covered. Bonuses and other forms of remuneration should be included in the total compensation. Furnish particulars as to such other compensation.

DEPRECIATION OF WATER UTILITY PLANT

Show below the data by which the Respondent computes its annual provision for depreciation on Utility Property. When an item of property has components with different rates of depreciation, show each component part separately with its associated data.

(1) - Maryland utilizes Depreciation Rates as authorized in Order No. 82893, September 23, 2009. The Order authorizes a rate of 2.20% and 2.0% for Comprehensive Planning Study A/C 339. Additionally, the depreciation rate for Contributed Property is 1.69%. The Annual Composite Rate for new additions in 2017 is 2.20%.

(2) - The depreciable plant balances are increased for net additions to plant recorded during the year. The Plant Additions occur, on average, at mid-year. The change in depreciable plant balances during the year results in an additional charge to depreciation expense. Additions and Retirements to Plant appear on page(s) 10 and 11 of this report.

2. In August 2017, MAWC commenced construction of an off-stream raw water storage impoundment adjacent to Winters Run and MAWC's water treatment plant. The purpose of the Bel Air Impoundment is to provide the Company and its customers with a reliable raw water supply source when water from other sources in the Bel Air system are not sufficient to meet demand. The project is expected to be placed in-service during the fourth quarter of 2018. The project includes replacement of the existing source water intake structure, pumping station, associated piping, and Supervisory Control and Data Acquisition (SCADA) system improvements at the treatment plant.
