PSC TO CENTRALIZE ITS WEBSITE CASE AND MAILLOG SEARCH FUNCTIONS

In an effort to streamline certain search functions on its website (www.psc.state.md.us), on November 3, 2022, the Public Service Commission will launch a new Case and Maillog Search Portal. The purpose is to provide a central portal where users can search and perform certain functions for documents that are assigned a maillog number (a tracking number assigned to each filing) as opposed to multiple search or query links located throughout its website.

From the central portal, users will be able to search various maillog, case and administrative dockets, official filings, Commission orders, and agendas and hearings. Users will also be able to electronically file (e-file) documents from this location. To ease the transition to this new portal, the Commission will also briefly maintain the existing individual search links located throughout our website. The new portal icon, to be located on the Commission's homepage, is shown below.
